

## **ON CONTROLS ADDS HONEYWELL TO PARTNERS IN CONTROL COOPERATIVE PROGRAM**

---

INTEGRATORS CAN NOW RELY ON COMPATIBILITY WITH A VAST RANGE OF SMART THERMOSTATS

**Detroit, MI October 13, 2015** – On Controls ([www.oncontrols.com](http://www.oncontrols.com)), a leader in cloud-enabled smart home and commercial control solutions for professional installers, has announced today the addition of Honeywell to their Partners in Control cooperative program. The Partners in Control program has been created to achieve seamless compatibility between the On Controls platform and a vast array of connected device manufacturers from related residential market applications such as audio, video, HVAC, security, lighting control and others. The new On Controls driver will ensure compatibility between a vast range of Honeywell Wi-Fi and RedLINK smart thermostats and the On Controls automation platform.

Honeywell is a market leader in the connected home and smart thermostat category, offering a range of solutions from Wi-Fi-based thermostats sold at retail to advanced multifunctional thermostats featuring a proprietary wireless protocol (called RedLINK), sophisticated programmability and scheduling capability as well as advanced touchscreen interfaces.

“On Controls welcomes Honeywell to the On Controls Partners in Control program and we are excited to offer our network of professional integrators an efficient solution for interfacing with these popular connected home devices,” commented On Controls Director of Control Jeff Skalny. “The new Honeywell driver works with a broad range of Honeywell climate control solutions, enabling integrators to efficiently and expertly address their client’s needs within a wide array of price points.”

The On Controls **Partners in Control** program will help bring best in class manufacturers and integrators together in the rapidly growing connected devices marketplace. Interested manufacturers can learn more about the **Partners in Control** program by contacting Jeffrey Skalny at: [jeff@oncontrols.com](mailto:jeff@oncontrols.com) or 313-373-7680.

### **ABOUT ON CONTROLS**

On Controls brings the convenience, luxury and security of advanced control and automation technology for residential and commercial applications to the Apple and Android phones and tablets already familiar to millions of users. A Wi-Fi-based platform that won the CEA 2014 Control Product of the Year award amongst other accolades, On Controls leverages the efficiency of the cloud, enabling integrators to
